

IDIT GO

Meeting the Needs of a Dynamic and Changing Industry

The insurance industry is evolving faster than ever. Increasing competition, the commoditisation of offerings and changing demands require insurers to rethink their strategies. Simply put, today's insurers can't afford to miss out on short-term opportunities.

Outdated systems hinder the ability to enact short-term change. However, the quicker, digital-only alternatives often lack the robust resilience of an end-to-end PAS (policy administration system). How can today's insurers meet the needs of a dynamic new market where personal, commercial and micro insurance lines have blurred, and traditional products just don't suffice?

Insurers need an out-of-the-box, cloud-native solution that answers the critical urgency for change without a large investment of time and money. They require a solution that provides a secure, streamlined upgrade and enables them to quickly launch new products and manage change with speed and agility. Perhaps most importantly, they need a scalable solution that also serves as a catalyst for growth – not only today but into the future.

Sapiens IDIT Go is Precisely that Solution.

IDIT Go Provides:

Faster Time to Market

Go live & manage change with speed and agility. Launch new products within weeks.

Digital First

Out of the box, configurable portals for consumers and agents.

Resilience of a Full Fledged PAS

Robust, industry-proven policy administration system, with deep insurance functionality.

Cloud-Native Benefits

Flexible, scalable and secure. Includes managed services, allowing insurers to focus on the business and not the technology.

Ensured Investment for Years to Come

Built on the same technology as our industry-leading IDITSuite.

Ready, Set, IDIT Go!

Our pre-packaged, ready-to-go solution streamlines implementation and operations, allowing you to launch new products quickly and easily. Created for a new era of insurance products with low coding, Sapiens' highly experienced delivery team uses agile methodologies to deliver tangible business benefits within a very short time frame. All at a fixed price!

Extensive, out-of-the-box business functionality and automation reduce the total cost of ownership, shorten time to market and enhance the customer experience, leading to higher retention and increased revenues. It is perfectly suited to any organisation (existing players, greenfield insurers or digital start-ups) looking to quickly meet critical and longer-term business goals.

Digital First

Our preconfigured digital portals deliver best-in-market practices for an enhanced user experience, ensuring immediate deployment and customer engagement. You start immediately. Our insurance experts designed the portal content to use as a base for insurers to build on, but we recognise that many insurers have invested considerable time and money developing their own portals. This is where our APIs and out-of-the-box tools can integrate with any third-party system.

Sapiens' insurtech ecosystem delivers pre-built components that can be utilised as accelerators to allow you to incorporate market leading solutions for better customer engagement, sales and marketing, product enhancements and more.

Don't Relinquish Resilience

Sapiens IDIT Go is an end-to-end, core insurance solution. IDIT Go combines Sapiens' expertise together with the deep insurance functionality that you've come to expect. Its configurable product templates and content enable quicker time to market for new products. IDIT Go's multi-lingual, multi-currency and multi-country functionality supports a wide range of personal and commercial lines. Simply pick your products, configure and go!

Soar with Our Cloud-Native Solution

IDIT Go is a cloud-first platform that delivers benefits only the cloud can provide. Enjoy operational efficiencies, scalability and security. Importantly, you will benefit from regular streamlined upgrades. Cloud solutions effortlessly support organisations as they scale up, adapting to changing business needs and supporting business continuity. They are available 24x7 and accessible from anywhere.

Our managed services allow you to transfer any monitoring and management requirements to a team of experts dedicated to you. Managed services enable you to focus on your core business objectives without worrying about IT.

Ready Today – for Tomorrow!

You are investing in a solution that will last. Built on the same technology as our industry-leading IDITSuite, IDIT Go is a platform benefiting from continuous R&D investment that will evolve over time in partnership with our customers. With over 35 years' experience deploying our solutions to hundreds of insurers worldwide, Sapiens has the expertise, knowledge and capabilities to get you started, and more significantly – to help you succeed!
