

Sapiens ReinsurancePro brings you Ready RI

How would you like to eliminate your manual processes, fully automate your reinsurance calculations and processing, generate all necessary reports and automatically feed your GL and Annual Statement? Is budget your biggest concern? Sapiens can help.

Introducing Sapiens **Ready RI**, a state-of-the-art SaaS reinsurance administration solution which automates your entire reinsurance portfolio in one, preconfigured solution. Instead of a large upfront fee for perpetual license, implementation and cloud services, pay one low initial investment and a small monthly, all-inclusive subscription fee.

Let Sapiens take care of the accelerated implementation and a worry-free, cloud-based comprehensive solution. Fully managed with 24/7 support, **Ready RI** allows you to focus on other critical business objectives and delivers reduced risk and exceptional reinsurance management.

Benefits:

Low Initial Investment

Accelerated Implementation

Fully Automated Reinsurance System

Cloud Hosted & Fully Managed

Low Initial Investment, all-inclusive monthly payment

With a budget friendly upfront fee and low monthly subscription fee, **Ready RI** delivers everything you need in a reinsurance management system.

Accelerated Implementation

Ready RI's pre-configured comprehensive reinsurance solution reduces your implementation timeline, to get you up and running in less than six months.

Fully Automated Reinsurance System

Simply provide your premium and loss transactions in our pre-defined templates, we load your data, run your processes, and provide you with all the reports you need, along with files for your General Ledger and Annual Statement solutions.

Cloud Hosted and Managed

Available in MS Azure's fully-serviced cloud infrastructure, Sapiens **Ready RI** provides 24x7 availability. Rest easy and let Sapiens manage it all for you.

With extensive reinsurance business and product expertise, and serving more than 100 Reinsurance customers, Sapiens provides the knowledge and service you need, including:

- Incident management and correction with SLA
- Run and monitor daily, monthly and annual processing
- Process jobs specific to client's business setup
- Verify file availability prior to load and/or modeling job processing
- Maintain application administration and security access
- Annual upgrade of the application, including enhancements, regulatory requirements and error corrections

Don't let budget, time, or outdated systems keep you from managing your reinsurance data effectively. From contract administration, to reinsurance claims, technical accounting, billing, and financial and managerial reporting, **Ready RI** provides complete, flexible, financial control of all your reinsurance processes in one fully integrated solution – at a cost you can afford.
